

Quality Policy

At the Robert Bird Group, our vision is 'The relentless pursuit of engineering excellence.'

We recognise that providing a service which meets or exceeds client requirements and results in solutions that are cost-efficient is integral to the fulfilment of our vision.

To achieve this, we are committed to:

- training and improving our people,
- satisfying the requirements of the relevant regulatory bodies, along with codes and standards as applicable,
- engaging with our customers, suppliers and partners,
- setting quality objectives which support our commitments and align with our business strategy,
- measuring, evaluating and reporting our performance against our objectives and targets,
- periodically reviewing our objectives for relevance, and
- continually improving our ISO 9001 certified Quality Management System.
